

## **Jeff Church for Washoe County School Board (At Large)**

Few people pay attention to the school board election but it is so important.

The safety of our children is #1!

Did you know?

The Washoe County School District (WCSD) has a budget similar to the City of Reno

WCSD is the largest employer in the county

Via dysfunction and incompetence it had a deficit of \$40 million dollars

WCSD has been besieged with lawsuits at taxpayer expense

The cost of building schools has skyrocketed beyond what we were promised of we passed the WC1 sales tax.

Damonte Ranch High School cost \$35 million. Then on their website they said a high school would be \$110 million, later they changed it \$135 million. Now, the next high school could top \$200 million or more! How did we go from \$35 million of taxpayer money to over \$200 million? Who is looking out for you?

A then District Attorney called WCSD "dysfunctional".

The school superintendent had her job performance rated as marginal to acceptable. I want Exceptional!

There is so much poor management and criticism of WCSD that it can't be addressed here.

The School District publically threatened Jeff with legal action if he didn't stop his criticism; it didn't work. Jeff stands by his concerns.

From the official Washoe County Website: "Mr. Church has continually made baseless and slanderous/libelous allegations against Mr. Etchart and WCSD. Again, Mr. Church is being placed on notice that if he continues to perpetuate this misrepresentation, he will be doing so with intentional disregard for the truth giving rise to a defamation cause of action."
